Customer Sale – Issues / Approaches

Gear has no tag

Flag a Swap Help Volunteer – Help Volunteers do this not Cashiers

- Ask if customer really wants the item
 - If it had a tag, look at floor around you, then sales line path then the Help Desk box, then floor in gear's sale area
 - If there was multiples of this item, Customer and Help quickly find and exchange it
 - If no multiples & they want it, cancel the Invoice, move the customer aside while Help checks lost tags and checks with Snowsports Shops
 - If tag not found and still wanted, the Help Volunteer will check with Help Desk Leaders
- If not resolved, the gear cannot be sold and goes to the inside Help Desk

Tag will not Scan

- Enter Tag Barcode #, Item Type (ski, boot, etc.), Manufacturer, model, size

Tag Scans but is not accepted by database

- Enter Tag Barcode #, Item Type (ski, boot, etc.), Manufacturer, model, size
 - If barcode still not accepted, put it in Comments
